

We're a Virtual Firm - Serving You Anywhere

07/05/2023 11:24 am EDT

Virtual Services

As a virtual accounting firm, we embrace technology to connect with our clients seamlessly. Whether you're across the street or across the country, our services are accessible to you wherever you are. We have designed our operations specifically for virtual connectedness, ensuring that distance is never a barrier in receiving our exceptional accounting services.

Please keep in mind that because we operate as a virtual firm,
we do not have a physical location for drop-in services .

In-Person Meetings

We understand the importance of occasional in-person meetings with your accountant. If your accountant is located nearby, please contact them directly to schedule a convenient time to meet. Our team members may be able to provide in-person meeting options upon request, depending on their availability and location. Additionally, certain team members have access to shared office spaces or meeting rooms, which can be made available based on the specific location.
